

## Stay Safe and Protected Wherever You Are

### Know the Facts:

- Each year, millions of older people—those 65 and older—fall. In fact, more than one out of four older people falls each year. Falling once doubles your chances of falling again.
- One out of five falls causes a serious injury such as broken bones or a head injury.
- Each year, 3 million older people are treated in emergency departments for fall injuries. More than 95% of hip fractures are caused by falling.
