

Voice Control with Amazon's Alexa

Start Talking to Alexa

Alarm.com Skill

Simply ask your system to perform commands or learn the status of your smart home devices. Each time begin by saying 'Alexa, ask Alarm.com...' You'll be able to run a Scene, change the thermostat, turn off the lights, disarm the panel, close the garage door, and more!

Secure commands, such as disarm the system, unlock the door and open the garage, are protected behind a 4-digit pin that can be set up during skill set-up.

Just say "Alexa, ask Alarm.com..."

-  to Arm Stay my system
-  to lock my front door
-  is my garage door closed?
-  to Sleep

Alarm.com Smart Home Skill

The Smart Home skill allows you to talk directly to Alexa and does not require saying 'Alarm.com.' Simply say 'Alexa...' You'll be able to change the thermostat temperature and turn your lights on and off.

Just say "Alexa..."

-  dim my living room lights
-  turn off my living room light
-  set my thermostat to 72 degrees

Set-Up Alarm.com and Alarm.com Smart Home Skills

1. Install Your Alexa-Enabled Device

Get voice control for your Alarm.com smart home system with any Alexa-enabled device, including the Amazon Echo, Echo Dot, Echo Show or FireTV Voice Remote. Follow the installation instructions that came with the device. Now you're ready to sync the device with Alarm.com.

2. Enable the Alarm.com and Alarm.com Smart Home Skills

- To enable the Alarm.com Skill, simply say, 'Alexa, talk to the Alarm.com Skill'
- To enable the Smart Home Skill, simply say, 'Alexa, talk to the Alarm.com Smart Home Skill.'

A card for each skill will appear at the top of your dashboard on the Alexa app. Tap 'Link Skill' on each card.

3. Sync Alarm.com with Alexa

You will be prompted to enter your Alarm.com account login and password to sync your account with Alexa.

4. Discover Devices

(Alarm.com Smart Home Skill Only)

Alexa will automatically start discovering your Lights and Thermostats after syncing the skill. If Alexa does not start discovering automatically you can say, 'Alexa, discover my devices.' The list of devices will appear in the 'Smart Home' section of the Alexa App.

For questions about either Alexa Skills, visit alarm.com/alexa or contact your service provider.

Voice Control with Google Home

Set-Up in Two Easy Steps

- 1. Enable the Alarm.com Action**
Ask Google "OK Google, talk to Alarm.com."
- 2. Sync Alarm.com with Google Assistant**
Open the Google Home app. Enter your Alarm.com account login and password to sync your account with Google Assistant.

Easy command and control

Just say "OK Google, ask Alarm.com..."

-  **to turn on the lights**
-  **to lock the front door**
-  **what is the temperature in the living room?**
-  **is my garage door open?**

Start Talking to Google Assistant

Simply ask your system to perform commands or tell you the status of your smart home devices. Each time, begin by saying, 'OK Google, ask Alarm.com.' You will be able to change the thermostat, adjust your lights, close or open the garage door, arm or disarm your system and more.

Have a bunch of commands you would like to say at once?

Open a conversation with Alarm.com. Start by saying 'OK Google, talk to Alarm.com,' and one by one you can say commands to Alarm.com. No need to say 'OK Google, ask Alarm.com to...' before each new command.

For questions about Alarm.com's Google Assistant Action, contact your service provider.
